

Shrimps Resort '21

For Resort '21 Shrimps draws inspiration from souvenirs, keepsakes, and the treasured memories we attach to them.

A palette of alpine green, sky blue and vibrant berry red is inspired by vintage illustrations of Alpine mountains, whilst motifs remembered from Swiss holidays and the classic book 'Heidi' appear throughout: red gingham, alpine botanical prints, crochet detailing and embroidered edelweiss flowers.

The collection revisits some of our most popular outerwear shapes, and debuts a variety of new dresses and separates ranging from fitted to relaxed, easy styles. Large collars, voluminous sleeves and tiered silhouettes are all explored, paying subtle homage to traditional Swiss costume.

Outerwear fabrications include new fur jacquards and checked wool styles alongside short jackets in printed cotton twill, complete with coordinating trouser and skirt options. Elsewhere, gingham styles artfully combine different scales of woven seersucker whilst delicate hand-embroidery adorns the season's knitwear.

Exciting new beaded and fabric bag options are complemented by updated colourways of our most iconic shapes. Statement earrings, frilled bucket hats and pearl-trimmed fabric barrettes provide a plethora of options for signature Shrimps accessorising.
