

LULA LAORA

Autumn Winter 22

Midnight

AW22 collection "Midnight"

One twist clockwise, and the lock of the Victorian mahogany wardrobe opens. You pull out the most elegant evening gown.

Like a calm river lit up only by the moon, the dark velvet reveals its grandeur only through the glimpse of light that it catches. It's long and majestic.

Once laced up, you feel the enjoyable weight of the fabric holding you tight around the waist like a pair of firm hands. In contrast, you put on the lightest gloves made of delicate tulle. Midnight has rung, you dive into the intimacy of the night with excitement and a pinch of fear.

Your fantasies no longer feel like dreams, they become more tangible as you bravely step forward with a fast-beating heart.

In this collection, you will find over the top evening gowns, extravagant coats, catsuits, puffer jackets, tailored jackets and more. We mainly worked with black, red and metallic fabrics. We used faux fur, velvet, PVC, satin, mesh, tulle, fine wool and jersey.

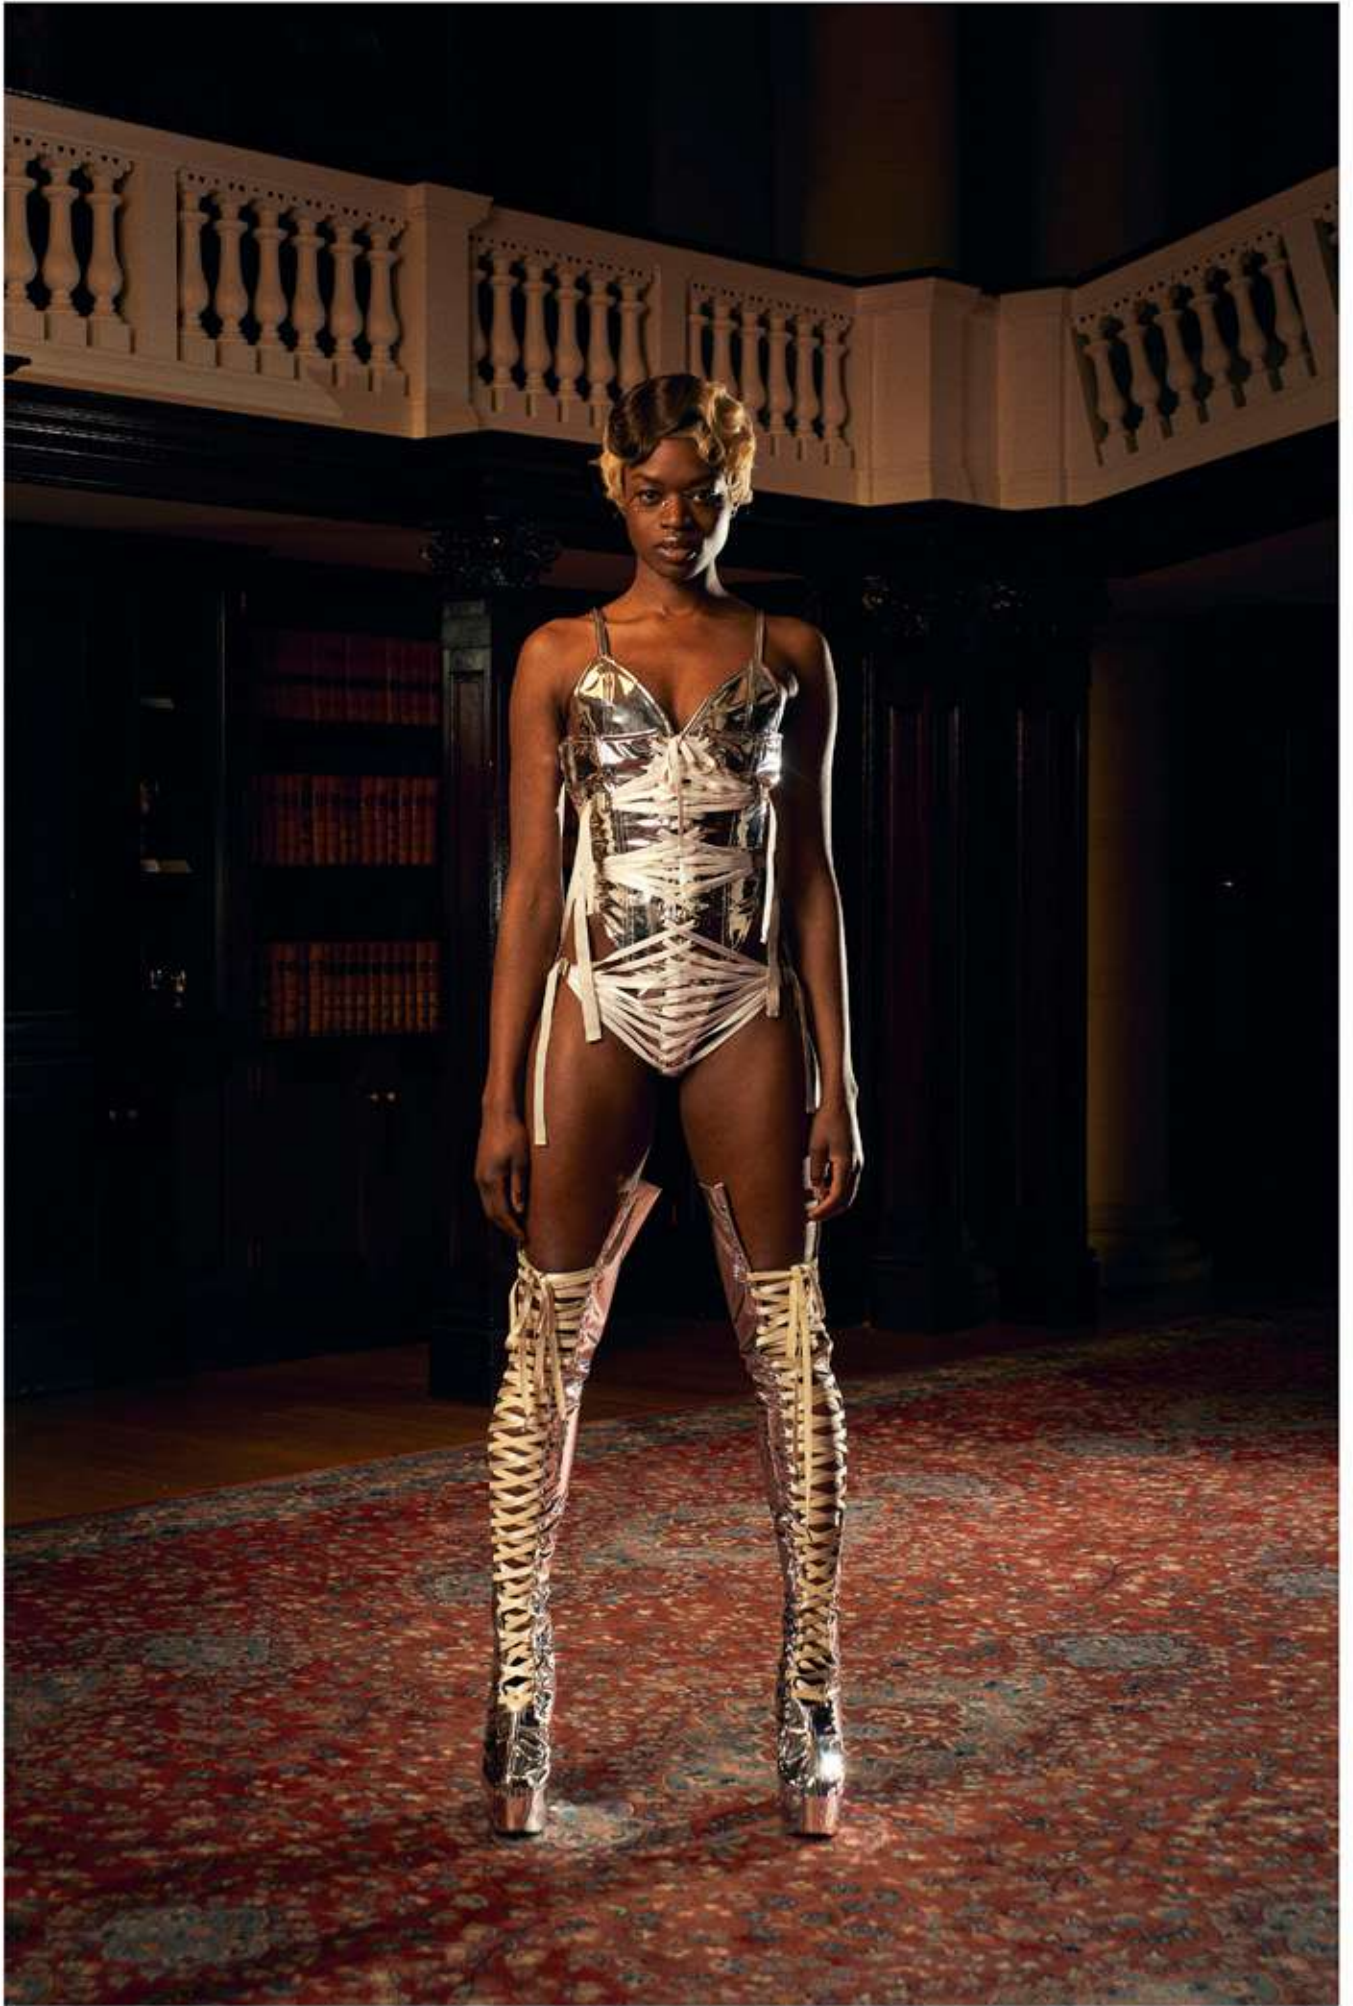

Inspired by the 1940s occidental evening wear, AHS Hotel Cortes and Art Deco architecture, our new collection is a bold take on Hollywoods' most glamorous period.

Our headpieces have been inspired by the Witch King and Sauron from the Lord Of The Ring and The Hobbit.

"Midnight" features powerful characters breathing elegance, courage and strength.
