

HUNTSMAN

AUTUMN-WINTER

READY-TO-WEAR

Foreword from Huntsman's Creative Director
Campbell Carey

With lasting lifestyle changes such as working from home as a norm, our Autumn/Winter '20 theme is all about heritage looks remastered for modern living. This season has given us the time to pause and appreciate just how rich and varied our surroundings are within the British Isles and the inspiration was drawn from the British landscape, both natural and man-made.

Drawing on the unexpected vibrancy of colours occurring throughout our winter, our exclusive tailoring and outerwear cloths are accented with rich coloured shirts, knitwear and trousers. With the current trend for separates, versatility as always is key and all pieces in this collection can easily be dressed up or down. These timeless pieces will fit perfectly into your wardrobe, to be enjoyed season after season.
