

16ARLINGTON

AW23: Wake

Presented by Marco Capaldo

Darkness, moonlight, earth, ritual, magic.
Sirens and shipwrecks, witches and water.
Spellbinding women.
Nature and femininity – the pull of the tides, the cycles of the moon.
Ovoid silhouettes. Mirror sequins. Thistle-like embroidery.
Duality and transparencies.
Glimpses of Catholic lace, reverent against bare skin.

Emerging from the depths, coming to the surface.
Waking to a new world.

16Arlington: the London-based Italian luxury house bringing a hedonistic, late night spirit to the modern woman's day-to-day wardrobe. Partners in both life and design, Marco Capaldo and the late Federica 'Kikka' Cavenati founded 16Arlington in London in 2017. Underpinned by its founders' Italian heritage, at its heart is a captivating tension between the subversive and the sensual, precision and provocation. Today, the brand is led by Capaldo in honour of Cavenati, whose irrepressible energy can be felt in every atom of the 16Arlington universe.
