

## Press Release

### Introducing Vinti Andrews AW23 Collection

#### Title "East End Girl"

Vinti Andrews Autumn Winter 2023 collection's designs was based around mid 80s East end girls, be it a more loose interpretation with some 90s thrown in. The main pieces are the oversized drop shoulder bombers jackets, floppy Wall Street trench, Yuppie dust silver dress and the snug calf length faux fur coat.

The colour palette was pulled from the urban architecture /redevelopment of the Limehouse basin in London, we loved the 80s postmodern touch set against the 1800s sandstone colours.
